08.06.- 27.09.2026

2026

CARINTHIA
It's my life!

ACTING SUSTAINABLY TOGETHER

Energy. Mobility. Regional cuisine. Clean and honestly produced products.

If you want to make a lasting change for the better, you have to pull out all the stops. The Nassfeld-Pressegger See region, Lesachtal, and Weissensee are actively committed to sustainability and have been awarded the Austrian Ecolabel for tourism destinations.

www.natuerlich-wir.com

FReD the electric car for hire - be independent and flexible - climate-friendly through the region. Because FReD can be rented by anyone who needs a vehicle or simply wants to cruise around in an electric vehicle - whether by the hour or over the weekend!

Simply book via the app! www.fred-fahren.at

Are you traveling without a car, but don't want to miss out on convenient access to all the highlights in the Nassfeld-Pressegger See region? How convenient that the vacation destination offers everything you need to get around easily and conveniently! Thanks to the well-developed bus network in the Nassfeld-Pressegger See region, it's easy to leave the car behind during your vacation. And it gets even better!

With the +CARD holiday or the GästeCard Basic in your luggage, you can use public transport free of charge ... even as far as Lesachtal! You can also use the ÖBB S-Bahn trains throughout Carinthia free of charge!

For some program points we also recommend public transportation - you can see this by the pictograms!

Here you can quickly and easily find the right public transport line!

SUSTAINABLE EXPERIENCE.

Special nature experiences designed sustainably help people experience, among other things, the contributions we make as a sustainable region—also through leisure activities—toward reducing greenhouse gas emissions.

Under “Green Experiences,” you can find a selection of such offers. Trained guides, acting as ambassadors of nature, as well as artisanal food producers from local farms, convey a sense of regional identity and provide information about the region’s sustainability measures. In this way, you can feel the authenticity of the area and learn to appreciate it (again).

By the way: Did you know that 97% of our mountain landscape is almost entirely undeveloped?

- Guided hiking and bike tours
- Guided pleasure tours
- Energyexperience tours

About behavior in nature:

In Carinthia, many plants are protected, which means that neither the above-ground nor underground parts may be removed. This naturally also applies to the unique Wulfenia Carinthisch, which is endemic to the Gartnerkofel on the Nassfeld.

Careful treatment of nature includes not throwing away waste - including cigarette butts. Empties should be taken home with you. It is important to stay on the paths and avoid shortcuts. Animals must not be disturbed or disturbed. Noise is frowned upon. Dogs must be kept on a lead and their droppings must be disposed of properly. The principle is that there should be no trace of your stay in nature and afterwards - then you have behaved correctly.
